

TECHNICAL ADVANTAGES

The MILL-10 flat die pellet mill incorporates the same simple and efficient belt drive system as the MILL-3. The MILL-10 is equipped with a 10 HP, 3-phase motor, and is built to withstand tough applications (excluding wood).

This unit is rated at 80 to 600 LBS per hour, depending on material, and is intended for R&D, pilot scale, and small production scale applications.

- 10 HP, 3-Phase Motor
- New dies available: 1/8" to 1/2" (3mm to 12mm)
- Custom die sizes available upon request
- Simple and reliable belt-drive system
- Safety stickers with icons
- Feed hopper and chute
- Stainless steel pellet knife
- Operator's manual included
- Heavy-duty design
- Powder coated with FDA approved materials
- Designed, built, & supported in the USA
- CME's Signature 1-Year Manufacturer's Warranty
