

## AUTOMATIC BOX WASHER

AUTOMATIC BOX WASHER

The Ezratek box washer provides an automated solution to wash seedboxes. With the ability to run 40 boxes per hour, minimal water loss, and boxes dry enough to store right off the conveyor, the Ezratek box washer allows you to get the job done efficiently. The machine is built on a frame with wheels, so when the job is done for the season, you can roll it inside for storage.

**EZRATEK**

### CAPACITY

Up to 40 boxes per hour
