

VIBRATORY CONVEYOR

The LMC Vibratory Conveyors exhibit the versatility and customizable aspects of LMC equipment. The varieties of pan and screen options they offer allow us to design a conveying system to fit any situation.

Also, choose between mild steel or stainless steel to fit your needs.

OPTIONS:

- Multiple pan flow options
- Bolted construction available to allow installation into smaller limited spaces
- Screening available (with or without ball tray cleaning)
- Sanitary design
- Stainless Steel contacts available
- Counterbalance for minimal vibration
- Multiple widths and lengths

CUSTOM BUILT TO FIT EACH ORDER'S SPECIFIC CONFIGURATION
