

ENCLOSED SPIRAL SEPARATOR

The Enclosed Spiral Separators are the most cost-effective and eco-friendly way to separate your materials and make your business more profitable.

As you determine the best spiral separators for your operation, the added value and flexibility of the enclosed spiral separator cannot be overlooked.

ENCLOSED SPIRAL SEPARATOR

14-16 gauge galvanized steel ensures rugged durability; they are configurable from one to twenty four core units, and can grow and change in response to your operation's needs.

Spiral uses include separating good seed from splits, weed seed, chaff, hulls, stems, etc. Spirals are also used to separate seeds of one kind from another depending on their shape and size.

Cleans Soybeans, Corn, Canola, Mustard, Peas, Vetch, Wheat, Rye, Barley, Oats, Flaxseed, Coriander, Peas, Millet, Milo, Alfalfa, Peppercorn, Ceramic & Glass Beads, Powder Metals, Steel Shot, Spherical Solder, Plastics, Proppant, Electronics, Minerals, Recycling & more.

profile
INDUSTRIES

- Galvanized steel construction
- 4 turns of separation
- Adjustable gate for fine-tuning separation quality
- XL observation windows
- Adjustable flow control
- Replaceable spiral cores
- Vertical no clog design
- Easy access to clean and sanitize
- Can be used mobile

Optional Features

- Stainless steel flights
- Stainless steel construction
- 14 unique flight geometries
- Discharge adaptors
- Custom leg heights
- Powder coated custom colors
- Rubber lined floor and walls
- Horizontal round material discharge
