

DESIGNED FOR USE AT MULTIPLE LOCATIONS.

The Gentle Roll™ Mobile Screener has even more options than the standard Gentle Roll™ screener, plus its mobility allows for use at multiple locations. It is most commonly used to separate mixed grains, but can be used to clean grain as well.

APPLICATIONS:

- BARLEY
- POPCORN
- WHEAT
- SOYBEANS
- RICE
- CORN
- RYE
- OATS

CUSTOMIZATION COMES STANDARD

With the Gentle Roll™ Mobile Screener, customization comes standard.

Each and every mobile screener is tailored to fit the customer's needs, applications, and locations.

ONE MACHINE, ENDLESS POSSIBILITIES

Some options available:

- EBM Aspirator
- Air System (Bag Filter or Cyclone)
- Valve System
- EBM Sidewinder™ Conveyor
- Horizontal Discharge Screw Conveyor or Belt Conveyor

CAPACITIES EXAMPLE:

	Bu / Hr	Tons / Hr
Sifting or Scalping	Up to 1,500	Up to 43
Separating Mixed Grains	Between 800-1,500	Between 23-43

The above chart is based on dry, good flowing product, with a bulk density of 45lbs/ft³ or 720 kg/m³ at 1900 cuft/hr per drum. Capacity varies depending on product specifications and flow. (Screening capacity less for mixed grains.)
