

VERSATILE SIZE OPTIONS

Kingwood specializes in manufacturing smoothwall hopper bins, available in a broad size range from 1 to 45 tonnes. It allows you to select the perfect capacity to meet your specific needs.

GRAIN & FEED BINS

DURABLE CONSTRUCTION

Kingwood bins are crafted from robust 12G steel (with an exception for bins under 5 tonnes), ensuring durability and longevity. The sturdy construction guarantees reliable performance, providing a secure storage solution for your materials.

CUSTOMIZABLE FINISHES

Enjoy the flexibility of personalization with their powder-paint finish. Each bin is powder coated with one interior and two exterior layers. The standard body colour is white, and accessories can be your choice of colour.

CUSTOMIZED FOR YOU

Your bin, your way. Their commitment is to construct each bin according to your unique specifications. From size to color options, we're dedicated to ensuring the final product aligns with your vision and requirements.

GRAIN & FEED BINS
