

The Codema Scrubber/Aspirator model 1025 can be used for a multitude of applications. As a Tempering Mixer for wheat and other grains, it quickly distributes water in a thin, uniform film over the surface of the grain kernels. It can also be used to eliminate stickiness in freshly tempered debranned wheat.

In Oat Mills, the Scrubber/Aspirator removes fuzz with minimal breakage to the oat groat. In corn (Maize) mills, endosperm is cleaned from the germ and light material is removed. In addition, this unit polishes the surface of peas and many other legumes, including lentils and beans.

Scrubber/Aspirator

CODEMA
LLC

PROVEN - Units operating in Wheat, Oat and Corn (Maize) Mills since 1985

VERSATILE - The Scrubber/Aspirator can be adjusted for Capacity and Product type using an optional motor speed controller

SANITARY - The all metal, self-cleaning design of the Scrubber/Aspirator eliminates areas where material can accumulate

SPECIFICATIONS:

DIMENSIONS: 42"L x 40"W x 102"H (1065"L x 1020"W x 2600mm H)

WEIGHT: 1340 Lbs (610 Kg) net weight without motor

DRIVE REQUIREMENTS: Up to 15 HP, depending on material and capacity

ASPIRATION AIR: Up to 1,800 CFM (51M3/m) recommended

CAPACITY:

Up to 550 Bu/hr (15,000 Kg/hr) when operating in Wheat Mills

**A VERSATILE
MACHINE THAT PROVIDES
A VARIETY OF
SOLUTIONS FOR GRAIN
